Education

Parul Institute of Engineering and Technology Aug. 2023 – May 2027

Vadodara, India

- B.Tech in Computer Science and Engineering (IEP with Oracle)
- GPA: 7.4 — Last Semester SGPA: 8.0

Experience

FullStack Web Development Intern Nov. 2024 – Jan. 2025

CodeAlpha (Remote)

- Built backend for a Food Reel App using Node.js, Express, and MongoDB.
- Implemented authentication and authorization using JWT and bcrypt.
- Developed modular Mongoose models for Users, Food Reels, and Uploaders.
- Enabled users to watch reels and uploaders to upload content in a production-ready MVP.

Projects

Gen AI Version Control System | *MERN Stack, OpenAI API, Supabase, GSAP, Recharts, Three.js, Framer Motion*

- Built a secure, full-stack version control platform with file uploads, user authentication (JWT, bcrypt), and role-based authorization.
- Integrated OpenAI to automatically perform AI-powered code quality reviews and provide real-time chatbot-based code analysis.
- Developed interactive dashboards with contribution heatmaps, repository analytics, and global tech stack visualizations using Recharts and Three.js.
- Enabled browsing of global repositories with AI-generated automatic code reviews to foster collaboration.
- Enhanced user experience with smooth animations and interactive UI using GSAP and Framer Motion.
- Utilized Supabase for efficient file storage and real-time backend data management.

Policy Checker – AI-Powered PDF Query Platform | *Node.js, Express.js, Supabase, MongoDB, Gemini API*

- Developed a document-query web platform enabling users to ask natural language questions about uploaded PDF documents.
- Implemented secure PDF uploads with Supabase Storage, supporting legal, insurance, and resume document types.
- Integrated Google Gemini API (RAG architecture) to generate context-aware, evidence-backed answers from document content.
- Built a robust backend using Node.js, Express.js, and MongoDB, with JWT-based authentication and document indexing.
- Ensured transparency by quoting original document clauses as part of the AI-generated responses.

Technical Skills

Programming Languages: C/C++, Java, Python, JavaScript, HTML/CSS

Technologies & Tools: React, Tailwind, Node.js, Express, MongoDB, Supabase, AWS, Scikit-learn, Pandas, NumPy, Matplotlib, Langchain

Gen-AI: AI Agents, Agentic Workflows, RAG, Agent SDK, Vector DBs, Multi-modal LLMs, Nlp, Tokenization

CS Fundamentals: Object-Oriented Programming (OOP), DBMS, Computer Networks, Operating Systems

Certificates

- Oracle Java SE 17 Developer – Oracle
- SQL on Oracle Cloud – Oracle
